

Broadway Dialysis Center
85 Bartlett Street,
Brooklyn, NY 11206

Type: Dialysis Center
Client: New York Continuum
Services LLC
Year: 2016
Cost: 1.85 Million
Project Size: 9,500 g.s.f.

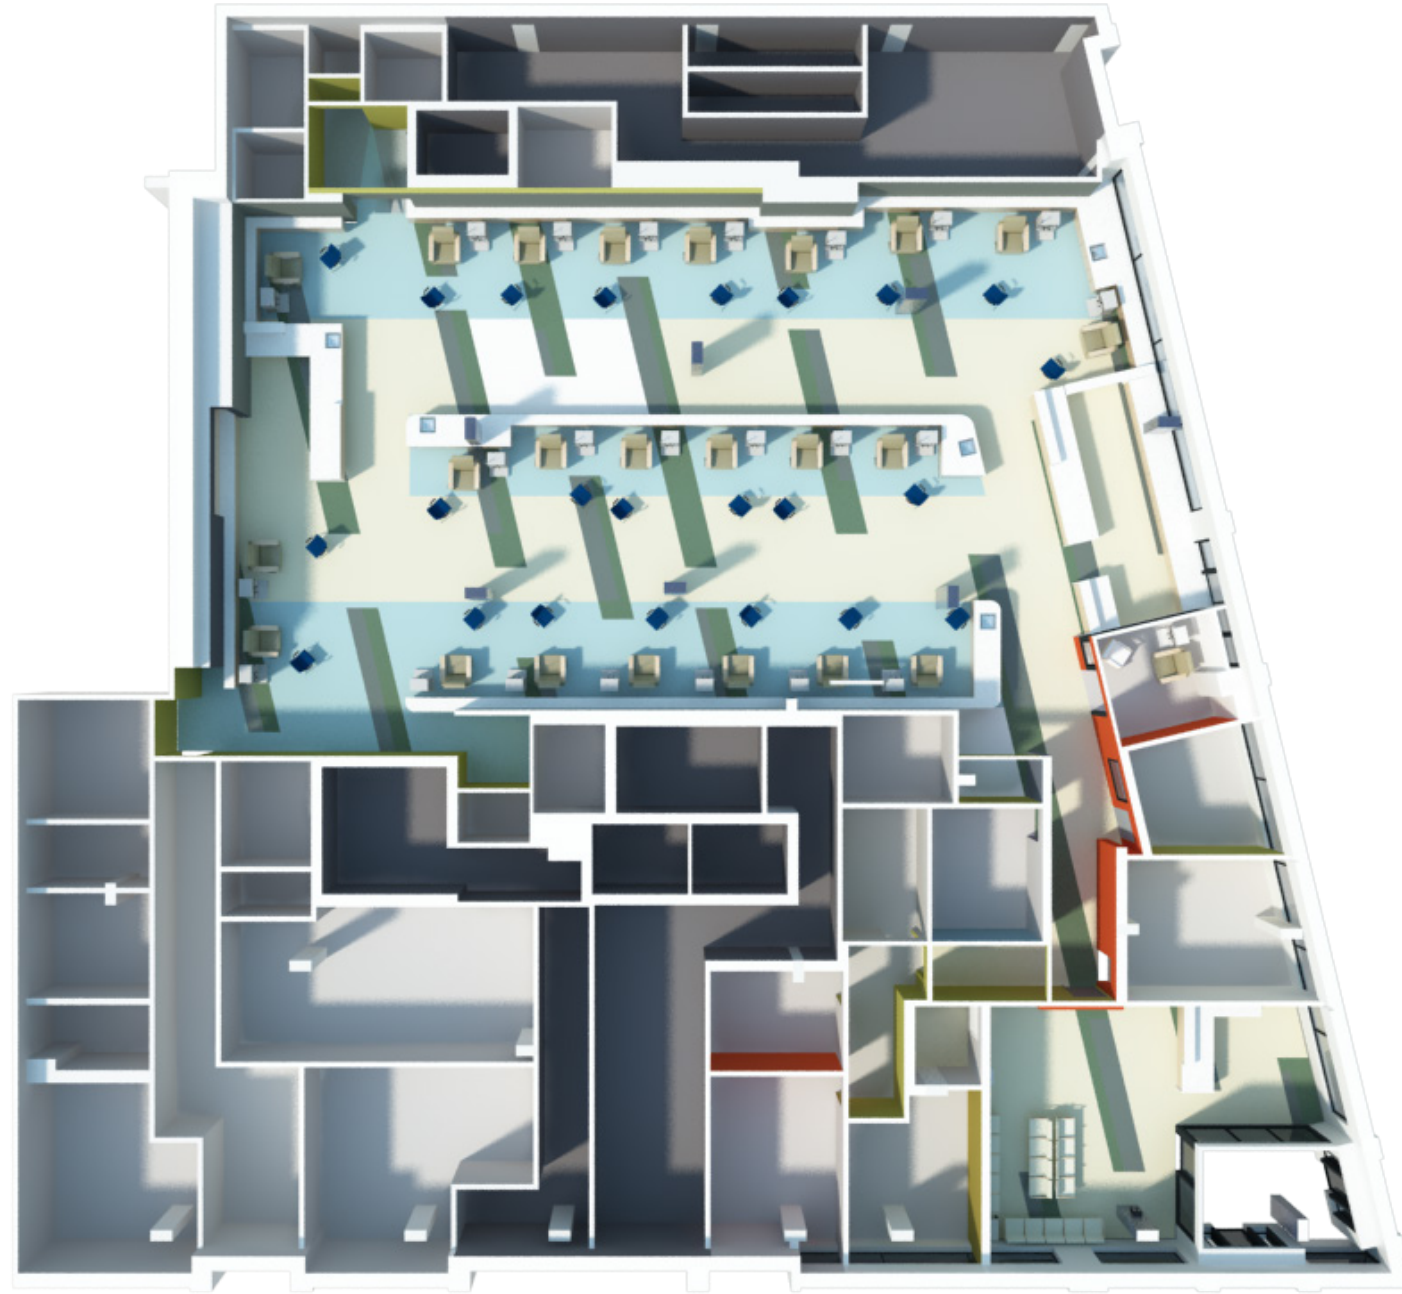

Located in burgeoning East Williamsburg, Brooklyn, this new dialysis center will enjoy a prominent urban scene and plenty of natural light. While its surrounding street facade is a mainly glazed storefront, the interior design strategy offers a loft-like environment with exposed finished concrete columns and surfaces, in combination with polished millwork stations and a pastel influx of colors for selected floors and surfaces. The new facility will include 24 stations for dialysis treatment and comfortable waiting areas for visiting families.

Partner in charge: Willy Zambrano
Design Partner: Daniel Barrenechea
Project Manager: Nancy Guzman
